DR. LEWIS M. SIMES

A grandson of the John VanGundy pictured on our front cover, Dr. Simes was an outstanding student and graduate of the Southwestern College at Winfield, Kansas. After teaching two years he did graduate work at Chicago University where he received two degrees in 1912 and 1914. Following this he combined teaching with the practice of law for a year, then served as a private during World War 1. After his discharge from the service, he had two considerable periods of teaching law at Montana Uni-

versity and Ohio State University. In 1926 Dr. Simes became a member of the faculty at the Law School, University of Michigan, where he served until his retirement in 1958. During his active years he was a lecturer at a number of law schools throughout the nation, and wrote extensively on wills, trusts, and related legal documents. Probably his outstanding contribution was a three volume set on the subject, "Future Interests," containing 750 pages.
